We're Moving from a Friday evening to a Thursday evening from Jan 2027 but the venue remains the same.

We are here to help. Every member is different, and has different requirements so as the make-up of the Club changes, we try to be as flexible as possible. We are therefore here to help individuals, or we can introduce you to another member who can help if we can't.

If there is a requirement for extra evenings for smaller group tuition nights or a workshop on a specific topic we will slot these into the Club program on a separate evening. These can be either in-person or zoom dependent on the suitability to the subject.

This could be help with Camera settings, or perhaps advice on using your phone camera, or on drone photography; with sizing or processing digital images, printing or just interested in feedback on your images. Just let us know.

Speak to one of the Committee, if you require assistance or would like more info on a specific topic, and we will see what we can do.

You can also email us on -
